Argentina's energy system, much like a overworked tango dancer, keeps stumbling when the heat is on. But here's the twist: the country is now charging toward energy storage solutions like ...

The international tender, first announced in February, aimed to secure 500 MW of energy storage capacity for critical points in the Buenos Aires Metropolitan Area (AMBA) grid. In a strong...

Looking ahead to a future tender expected for next year, with the hopes to launch it during Summer 2026, one of the aspects Luchilo highlights is the idea to open the tender to the ...

The initiative seeks to add 500 MW of storage capacity in critical nodes of the Metropolitan Area of Buenos Aires (AMBA) and guarantee electricity supply during peak demand.

The \$540 million investment in energy storage isn't just about keeping the lights on in Buenos Aires. It's a strategic bet on a more flexible, reliable, and sustainable energy future for ...

Fifteen companies submitted 27 proposals, offering 1,347 MW of capacity and over \$1 billion in investments, surpassing the tender's 500 MW goal. Eligible BESS units must be new and ...

Argentina has opened a \$500 million battery storage tender aimed at adding 500 MW of new energy storage capacity in the Buenos Aires metropolitan area. The AlmaGBA program, ...

According to industry sources, Argentina is preparing a new public energy storage tender following the success of AlmaGBA in the Buenos Aires Metropolitan Area, which awarded more than ...

Intended to strengthen the grid in the greater Buenos Aires region, the program has attracted a lot of attention; it has been subscribed to projects that are about twice the desired capacity.
