As of March 2025, Tirana's municipal grid has recorded 47 voltage fluctuation incidents this quarter alone--a 22% increase from 2024. This isn't just about keeping lights on; it's about a city determined ...

Tirana, Nov. 22, 2024 -- Albania is set to move 2,600 businesses onto the open electricity market by January 1, 2025, in a sweeping energy liberalization push.

The Albanian power transmission system lacks wide adequate monitoring, control and communication systems that would enable a more efficient and secure management of the network. This is mainly ...

Tirana's electricity demand has grown 18% since 2020, with renewable sources now accounting for 42% of Albania's power mix. However, solar and wind's intermittent nature creates grid instability - ...

When you hear "Tirana Power Storage Project," do you imagine giant Duracell bunnies hopping around Albania's capital? Okay, maybe not that whimsical - but this project is electrifyingly important.

This investment project builds a new 400/220 kV overhead line between Tirana and Rrashbull, expanding the local grid to meet growing demand, boosting capacity, and improving electricity reliability.

The European Union has cleared a EUR87.7 million support tranche under the Growth Plan for the Western Balkans Investment Framework. From this first financing phase, Albania will receive ...

The project is part of the European Commission's initiative to establish an East-West electricity transmission corridor between Bulgaria, North Macedonia, Albania, Montenegro and Italy.

The Adriatic Energy Corridor (launched March 2025) enables Tirana to trade surplus storage capacity with neighboring grids. During a trial last month, Albanian batteries supplied 200MWh to Montenegro ...

The "Tirana 3" substation is considered a key element not only for the development of the

Tirana electric grid

electricity grid, but also for strengthening international cooperation, energy stability, and climate ...
