Our team has hands-on experience with a wide range of solar speakers, and we've seen the evolution of solar speaker technology from its inception to the advanced versions available today.

Transparent's stunning range of speakers, made of durable aluminium and glass, showcase design transparency and embody the brand's dedication to sustainability.

These speakers soak up solar energy so you can keep the music going wherever your adventure leads. They are designed to deliver bold, clear sound without needing to plug in.
