-----

This innovative battery offers twice the power, half the weight, and an impressive lifespan that is 8 times longer than a traditional sealed lead acid battery. With its exceptional lifetime value, this battery is ...

Dakota Lithium 12v 100Ah Deep Cycle LiFePO4 Battery has twice the power, half the weight, and lasts 4 times longer than a sealed lead acid battery.

WEIGHT - 27.55 lbs (12.5Kg). That's 60% lighter than a SLA battery. LIFECYCLES (BATTERY LIFESPAN) - Up to 80% capacity for 5,000 cycles in recommended conditions. The typical SLA has ...

It's a LiFePO4 battery, which is known for its safety and reliability compared to other types of lithium batteries. The Dakota Lithium 12V 100Ah Deep Cycle LiFePO4 Battery has a weight ...

This battery has twice the power, half the weight, and lasts 8 times longer than a sealed lead acid battery - providing exceptional lifetime value. 100 Amp hours of capacity provides a full day of power ...

Dakota Lithium batteries provide consistent power for all 100 Amp hours. DL LiFePO4 batteries have a flat voltage curve, which means they have a steady power output as the battery discharges.

This battery has twice the power, half the weight, and lasts 8 times longer than a ...

Size: 12.99 in (330mm) L x 6.77 in (172mm) W x 8.66 in (220mm) H. Group 27 equivalent. Weight: 31.9 lbs (14.5Kg). That's 60% lighter than a SLA battery. Group Size 27 & 31: BCI Group Number 27 & 31 ...

Move faster with 60% less weight. And play harder with Dakota tough lithium iron phosphate (LiFePO4) engineering that is built for cold temperatures and extreme environments.

27.55 lbs (12.5Kg). That's 60% lighter than a SLA battery. Up to 80% capacity for 2,000 cycles in recommended conditions. The typical SLA has 500 cycles. Dakota Lithium batteries last so long that ...

## Weight of dakota lithium 12v100ah

12V 100Ah Deep Cycle Heated LiFePO4 Battery Weight: 27.5 lbs Great for RVs, trolling motors, and solar  
Deep cycle, Even-Heat Technology, affordable power
